

# Santa Catalina Bighorn Sheep Reintroduction Project

June 4 – 17, 2015

## **BRIEFING**

The following is a summary of bighorn sheep reintroduction activities on the Coronado National Forest from June 4 - 17, 2015.

#### **LAMBS**

Lambs continue to be observed with ewes, some still nursing, in the Pusch Ridge Wilderness.

### **WILDLIFE COLLARS**

The GPS component has failed on two collars, and movement information cannot be obtained. However, the VHF component is still working on both collars, and the sheep are located on a daily basis.

### **MORTALITIES**

There were no known mortalities of collared sheep during this reporting period. The last known mortality was on December 23, 2014.

## **CURRENT POPULATION STATUS**

As of June 17, 2015, 40 collared sheep are known to be alive.

### **RESEARCH FIELD NOTES**

There are no research updates.
